1 Module info

Module name	MultiAccessories Pro
Description	Manage accessories of a product in groups and offer ability to check out the main product and its accessories in just 1 click.
Merchant benefits	<ul style="list-style-type: none">▪ Offer a bundle of products, therefore increase sales amazingly.▪ Does it sound like combinations? Yes, it seems, but it's totally different. A product and its accessories are separated products; they are not different attributes of the product.▪ Does it also sounds like a packed product? Yes it seems too. But your customers are free to choose one or more or even not choose any accessories to be checked out. It's very flexible.▪ Don't you see any differences in compare to built-in accessory feature? Alright, it's very similar to, but instead of adding accessories, now you can add them in different groups of accessories. This is good suggestion for your customers in case they don't know what to buy with.▪ And what about related product feature? Accessories are a kind of "related" and more structural.▪ Beyond all of them, shopping has never been easy like this. Just choose accessories and click "Add to basket". All of accessories and the main product now are already in shopping cart!
Customer benefits	<ul style="list-style-type: none">▪ Be easy to find out what they should check out▪ Be flexible and has full right to select different accessories (or not) and add to shopping cart so quickly.▪ Save time to get a bundle of their favorite products
Features	<ul style="list-style-type: none">▪ Option to show accessory groups in dropdown or checkbox list style▪ Options to show price or image or both with accessories label▪ Manage groups of accessories▪ Activate or deactivate a group▪ Add accessories to different groups of a product▪ Change the name of an accessory - which will be displayed at product page▪ Visitors can select one or some accessories to be added with the main product and proceed to checkout

	<ul style="list-style-type: none"> Orders then are processed as usual, it sounds like orders of different products
Version	2.0
Compatibility	Prestashop 1.5.x, 1.6.x

2 Install module

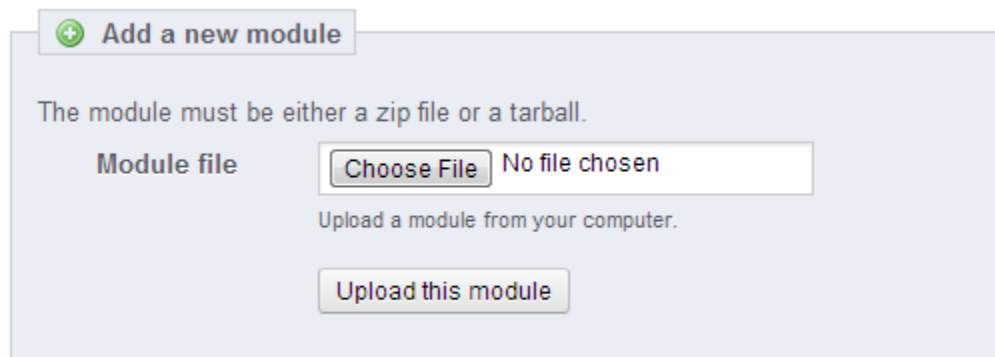

- In the Back Office, go to Modules

- Click on **Add new modules** in the upper right hand side

- In Add new module page, click “**Browse**” button and locate the package downloaded from us.

- Click on “**Upload this module**” button.
- In the “**Modules**” tab, search for “**Multi Accessories**” to locate to the module. Click “**Install**”

3 How to use

3.1 Configuration

Once this module is installed, there will be an extra menu named “**Accessory groups**” right under “**Catalog**” menu. This menu will link you to **Multi Accessories** configuration page as screenshot below:

Catalog > Accessory groups + Add new

Settings

Display style:

Show images: ☒ Yes ☐ No

Show price: ☒ Yes ☐ No

Title:

Page 1 / 1 | Display 50 / 3 result(s) Filter Reset

ID	Group Name	Active	Actions
1	Mouse	<input checked="" type="checkbox"/>	
2	Keyboard	<input checked="" type="checkbox"/>	
3	Speaker	<input checked="" type="checkbox"/>	

In this page, you can configure how the accessory content will show on Front-end as well as manage the accessories group.

3.1.1 Module settings

In box settings of module page, you can choose to configure:

- **Display style:** How list of accessories will be shown. There are 2 types to choose: Checkbox (multi selection) or Dropdown (single selection)
- **Show images:** Option to decide whether to show accessory image in list accessories or not. This is only available for **Checkbox** display type.

- **Show price:** Option to decide whether to show accessory price in list accessories or not.
- **Title:** The heading text for accessory group. You can leave it blank if you do not want to show this info.

3.1.2 Manage accessory groups

Each accessory product will have to belong into one accessory group. You can create as many groups as you wish. In this configuration page, you can add new, edit or delete any accessory group.

3.2 Add products as accessories

When managing one product, Prestashop already offers a feature to add one or more products as accessories. However, this default feature only shows accessory products in a separated tab.

With “**Multi Accessories**” module you are offered a total new way to manage accessory products just like combinations. You now can:

- Categorize accessory products into different groups.
- Search for products
- Edit the name of accessory product to whatever

To add one product as an accessory product, please follow below steps:

- i. In product edit page (BO > catalog > product), click on tab “**Multi accessories**”
- ii. For each accessory group, there’s an input field to search product. We can search any products by name or reference. A search suggestion dropdown will be shown based on keyword you entered.
- iii. Select product you want to add as accessory product
- iv. Do not forget to save all your work

After saving, you’ll notice that there’s an icon edit next to every accessory product. This icon is for editing accessory’s label (texts will show at front-end).

**Search for products and add them to different groups so quickly.
Unlimited accessories in each group.**

3.3 Select accessories at frontend

Once being added to accessory groups of the current product, at frontend (product page) these groups (and accessories) look like combinations of the product.

Based on module setting, you will have different layout/style at front-end. You can choose to show your accessories in dropdown lists or in check box lists. Each accessory group will be formed in a list.

You can select one or more accessories to buy with the current product. Actually, when you click on “**Add to basket**” button, you’re checking out one main product (current one) and all its accessories that you chose as separated products. You can easily remove any of them later.

See how different configuration values create different layouts in screenshots below:

The image is a screenshot of the Apple website's iPod Nano product page. A large red banner at the top reads "Checkbox accessory list with price". The main content area shows the iPod Nano with a description: "New design. New features. Now in 8GB and 16GB. iPod nano rocks like never before." Below this, there are options for "Disk space" (16GB) and "Color" (various color swatches). A "Reference demo_1" section shows a quantity of 1. The availability is listed as "IN STOCK" with "10 items in stock". The price is "\$173.88" with a "-5%" discount from "\$183.03". There is an "Add to cart" button. A "Must-have accessories" section is highlighted with a white box, containing two categories: "Upgrade" and "Warranty". Each category has a list of items with checkboxes and prices: iPod shuffle (\$72.66), MacBook Air (\$1,654.60), MacBook (\$1,287.63), and Belkin Folio (\$27.55). The right sidebar shows other products like MacBook Air, MacBook, iPod touch, and Belkin Leather Folio. The bottom of the page has a "SPECIALS" section and a "OUR STORE(S)" section.

3.5 Volume discounts are taken into account

Despite of the main items or accessory items, their volume discounts (specific prices) are applied on fly.

The screenshot shows a product page for a 'Faded Short Sleeves T-shirt'. The page layout includes a top navigation bar with categories like WOMEN, DRESSES, and T-SHIRTS. Below this is a breadcrumb trail: Women > Tops > T-shirts > Faded Short Sleeves T-shirt. The main product image shows a woman wearing the t-shirt, shorts, and a straw hat. To the right of the image, the product name 'Faded Short Sleeves T-shirt' is displayed, along with its reference, condition, and description. A price tag shows '\$78.42'. Below the price, there are options for quantity (set to 5), size (S), and color (yellow). A red overlay text 'Take volume discounts into account' is positioned over the product details. To the right of the product details, there are buttons for 'Add to cart', 'Add to wishlist', and 'Quote this item'. Below these buttons, there are payment logos for PayPal, VISA, and MasterCard. A 'Must-have accessories' section lists two groups of items: 'Group 1 Printed Dress - \$27.04' and 'Group 2 Printed Chiffon Dress - \$17.0'. A 'VOLUME DISCOUNTS' table is also present, showing discounts for quantities of 5 and 10. The table has three columns: Quantity, Discount, and You Save. The bottom of the page features a 'DATA SHEET' button and a footer with 'Compositions' and 'Cotton'.
